PATENTBOOK PUBLISHER (LICENSOR) AGREEMENT

This PatentBook Publisher Agreement (the "*Agreement*") is made as of _____, 20__, by and between PatentBooks, Inc., a Delaware corporation ("*PBI*" or the "*PatentBook Administrator*") and the undersigned "*Publisher*" ("*Licensor*"). The Publisher (Licensor) and PBI are collectively referred to herein as the "*Parties*" or individually as a "*Party*."

RECITALS

A. The Parties acknowledge that inventions disclosed to the public via patents are intended to promote the progress of science and useful arts by securing to inventors for limited times ownership rights to their respective discoveries. Patented inventions used by the public and expedited compensation to the patent owners promote progress in science and useful arts. Complex useful products and services compel a more efficient licensing methodology.

B. The Parties acknowledge and understand that the granting of licenses to portfolios of patents by the owners thereof can result in significant efficiencies and reductions in aggregate licensing costs for Subscriber (Licensee)s and can reduce the risk of litigation, resulting in lower costs for purchasers and other consumers of products or services embodying one or more claims in such patents.

C. The Parties also acknowledge and understand that the granting of licenses to portfolios of patents by the owners thereof can result in significant reductions in transactional costs compared with negotiating separate licenses to several patents with several Persons (as defined herein).

D. The Publisher (Licensor) has the right to grant non-exclusive patent licenses or sublicenses with respect to certain patents (as defined herein) that meet the criteria for inclusion in the PatentBook (as defined herein).

E. The Publisher (Licensor) desires to list certain of its patents in the PatentBook, described in Appendix 1, and to make available rights under the Licensed Patents (as defined herein) pursuant to this Agreement for the convenience of any Person desirous of obtaining such rights to practice the inventions claimed in the Licensed Patents, as more particularly described in Exhibit A, thereby avoiding the need to obtain a separate license for each Licensed Patent and the delays and additional royalties and transactional costs associated with obtaining such separate licenses.

F. The Publisher (Licensor) desires that its Licensed Patents be aggregated with Additional Publishers' PatentBook Patents (as defined herein) for the purpose of making available rights under the Licensed Patents, thereby further avoiding the need to obtain a separate license from each Additional Publisher (as defined herein) and the delays and additional royalties and transactional costs associated with obtaining such separate licenses.

G. The Parties intend that nothing in this Agreement shall preclude any patent owner and any other Person from entering into a separate license agreement under one or more individual patents or from entering into non-assertion agreements relating to any such patent outside of the terms and conditions of this Agreement, subject to the terms and conditions set forth in this Agreement.

H. The Parties intend that nothing in this Agreement shall preclude the Publisher (Licensor) from withdrawing from the PatentBook any Licensed Patent and asserting its rights under any such Licensed Patent, subject to the terms and conditions set forth in this Agreement, against any Person believed to have infringed, or to be infringing, any such Licensed Patent.

I. The PatentBook Subscriber License granted to Subscribers (Licensees) shall extend to all customers and users of Subscribers' Licensed Products and Licensed Services pursuant to the "first sale" or "patent exhaustion" doctrines.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and promises between the Parties set forth in this Agreement, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

2.2. Retention of Rights to Independently Transfer Rights and to Assert PatentBook Patents. Publisher (Licensor) retains the right, separate from this Agreement, to negotiate with and to grant to any other Person any and all rights in any PatentBook Patent that Publisher (Licensor) owns or has the right to transfer under terms and conditions as Publisher (Licensor) and such other Person may agree (a "*Bilateral Agreement*") and, subject to the provisions of Section 2.6, to pursue legal or other action against a Person whom Publisher (Licensor) believes has infringed a PatentBook Patent.

2.4. No Duplicate Payments. ARTICLE III PATENTBOOK PATENTS: SELECTION, SUBMISSION, AND CLASSIFICATION

3.1. Identifying and Selecting patents. The PatentBook Administrator and PatentBook Publishers shall use commercially reasonable efforts to identify patents that may be appropriate for inclusion in the PatentBook and the owners thereof.

3.2. Setting Boundary Criteria. The PatentBook Administrator shall be solely responsible for setting the boundary criteria of the PatentBook, which shall include determining whether a particular patent is eligible for inclusion in the PatentBook and establishing the Licensed Product(s) and/or Licensed Service(s) for which the patents in the PatentBook may be licensed. The PatentBook Administrator shall have the sole and absolute authority for making such determinations. In performing these services, the PatentBook Administrator will consult at its discretion with the PatentBook Publishers, Subscribers and other industry representatives.

3.3. Patent Listing.

3.3.1. *Listing Patents in PatentBook.* In addition to the patents listed in Appendix 1, Publisher (Licensor) is invited to submit to the PatentBook Administrator for potential inclusion in the PatentBook any patents that Publisher (Licensor) owns, acquires, or otherwise has the right to license or sublicense that Publisher (Licensor) believes in good faith meet the boundary criteria for inclusion in the PatentBook.

3.3.2. *Authority for Patent Inclusion in PatentBook.* The PatentBook Administrator shall have the sole and final authority for determining whether a particular patent is eligible for inclusion in the PatentBook.

3.4. Classification, Evaluation, and Validation of Patents.

3.4.1. *Classification of PatentBook Patents into Three Tiers.* Each patent included in the PatentBook shall be classified as a **Tier 1 Patent**, **Tier 2 Patent** or **Tier 3 Patent**. Any patent selected for inclusion in the PatentBook will be assigned to Tier 3 unless Publisher (Licensor) has the patent evaluated according to the publicly available TAEUSworks™ Patent Evaluation Criteria.

3.4.2. *Evaluations.* If Publisher (Licensor) believes that a patent should be classified as a Tier 1 or Tier 2 Patent, or if the PatentBook Administrator suggests to the Publisher (Licensor) that one or more of its patents should be assigned to Tier 1 or Tier 2 the Publisher (Licensor) may perform at its cost an "**Evaluation**" of each such patent according to criteria set forth in TAEUSworks Patent Evaluation Criteria, resulting in a numerical score for such Patent. Publisher (Licensor) shall provide each such Evaluation to the PatentBook Administrator, along with a written request that the PatentBook Administrator have such Patent(s) Evaluation(s) validated (a "**Validation**") by an independent **Patent Evaluator**, resulting in a validated numerical score. Publisher (Licensor) agrees that it is also responsible

for costs associated with the Evaluation and Validation of the Evaluation as outlined in Section 3.4.7.

There are no costs to the Publisher (Licensor) for patent(s) listed in Tier 3.

3.4.3. *Validations.* A Validation is required to confirm each PatentBook Patent Evaluation. An independent Patent Evaluator shall perform each Validation of a Patent Evaluation. Independent Patent Evaluators shall validate such patents according to the same TAEUSworks Patent Evaluation Criteria. If the Publisher (Licensor) has had the Evaluation performed by an independent Patent Evaluator, a different independent Patent Evaluator selected by the PatentBook Administrator shall perform the Validation.

3.4.4. *Classification of Patents after Publisher Evaluation and Validations.* The PatentBook Administrator shall classify patents as Tier 1 patents, Tier 2 patents or Tier 3 patents based upon the numerical scores resulting from the Patent Evaluation and Validation. The distribution of patents among the three Tiers shall be as follows:

(a) Tier 1 patents shall equal 1% of the patents in the PatentBook that have received the highest numerical scores following their Evaluations.

(b) Tier 2 patents shall equal 9% of the patents in the PatentBook that have received the highest numerical scores following their Evaluations, excluding the Tier 1 patents.

(c) Tier 3 patents shall equal the remaining 90% of the patents in the PatentBook.

3.4.5. *Changes in Classifications/Evaluations.* The Parties acknowledge and understand that the number, classification and Evaluation of the patents included in the PatentBook may change over time as new patents are added, deleted, withdrawn, evaluated or re-evaluated in the PatentBook.

3.4.6. *Early Adopter Benefits.* Any patent classified as a Tier 1 or Tier 2 patent shall maintain such classification for not less than one Year after the first distribution of **Publisher Share** as set forth in Exhibit B, if the patent is one of the first one thousand (1000) patents to be evaluated ("**Early Adopter Evaluated Patents**"), notwithstanding the provisions of Section 3.4.5.

3.4.7. *Fees and Expenses of Evaluations and Validations.* Patent Evaluations may be completed independently by Publishers at their own expense at any time. Publishers of patents submitted for Evaluation by the PatentBooks Administrator shall be solely responsible for the cost of those patent Evaluations. Publishers shall be solely responsible for the cost of Validations of all their patent Evaluations, regardless of who conducted the Evaluations. List price for Validations of patent Evaluations is \$20,000 per patent, and will be reduced over time. Discounts may be available from time to time.

There are no costs to the Publisher (Licensor) for patent(s) listed in Tier 3.

3.5. Challenging Inclusion or Classification.

3.5.1. *Challenge Procedure.* The PatentBook Administrator, Publisher or Subscriber may challenge the listing of any patent in the PatentBook or the Tier classification of a PatentBook Patent by recommending that it be removed from the PatentBook or reclassified into a lower Tier (such patent being referred to herein as the "**Challenged Patent**"). Similarly, a Publisher may challenge the Tier assignment of Publisher's Patent and recommend it be moved into a higher Tier.

3.5.2. *Classification to a Higher Tier.* In the event that the Publisher (Licensor) has a good faith belief that one of its PatentBook Patents should be reclassified into a higher Tier, the Publisher (Licensor) shall follow the process outlined in Section 3.4 to have a patent re-Evaluated and Validated.

3.5.3. *Reclassification Initiated by PatentBook Administrator.* In the event that the PatentBook Administrator has documentation that the Challenged Patent should be reclassified into a lower Tier or should not be included in the PatentBook, the PatentBook Administrator shall notify and provide documentation to Publisher (Licensor) of the Challenged Patent, and the Publisher (Licensor) shall either:

(a) Authorize the PatentBook Administrator in writing to withdraw or withhold the Challenged Patent, or to reclassify the Challenged Patent in accordance with the PatentBook Administrator's recommendation; or

(b) Submit supporting documentation as to why the Challenged Patent should be included or remain in the PatentBook or, submit the Challenged Patent to an independent Patent Evaluator for re-Evaluation and Validation. The Publisher (Licensor) of the Challenged Patent shall be responsible for the Patent Evaluator fee incurred in connection with the re-evaluation of the Challenged Patent under this Subsection if the Evaluation confirms the re-classification of the patent into a lower tier. If the Evaluation and Validation of the challenge patent confirms the patent is in the right Tier and should not be re-assigned to a lower Tier, the Patent Evaluator fees will be paid by the PatentBook Administrator.

3.5.4. *Challenges from Other Persons.* If a Person notifies and provides documentation to the PatentBook Administrator and Publisher (Licensor) that a patent of the Publisher (Licensor) should not be included in the PatentBook or should be re-classified into a lower Tier, the Publisher (Licensor) shall either:

(a) Authorize the PatentBook Administrator in writing to withdraw or withhold the Challenged Patent from the PatentBook, or to reclassify the Challenged Patent into the appropriate Tier; or

(b) Notify the PatentBook Administrator and the challenging Person in writing that the Publisher (Licensor) continues to believe in good faith that the Challenged Patent should be included in the PatentBook or is properly classified, as the case may be. In such event, if the challenging Person desires to have a Patent Evaluator evaluate or re-evaluate the Challenged Patent, the Publisher (Licensor) shall submit the Challenged Patent and any supporting documentation to a Patent Evaluator for re-evaluation, provided the challenging Person pays all fees and expenses of the Patent Evaluator. In the event that the Patent Evaluator's evaluation confirms that the challenging Person was correct, the Publisher (Licensor) shall reimburse the challenging Person one-half of patent Evaluator fees and expenses not later than 30 days after the Patent Evaluator's evaluation was delivered to the Publisher (Licensor) provided, however, that the Publisher (Licensor) reimbursement to challenging Person shall in no event be greater than monies earned through payments received by publishing patent in the PatentBook. If monies earned by the Publisher (Licensor) from Publisher (Licensor) Patent prior to reclassification are insufficient to fully pay for Publisher (Licensor) half of expenses associated with re-Evaluation and Validation of PatentBook Patent, challenging Person will pay balance remaining.

3.6. Determinations.

3.6.1. The PatentBook Administrator shall promptly notify Publisher (Licensor) regarding its patents upon completion of any Evaluation by a Patent Evaluator, as well as any determination by PatentBook Administrator of Patent Tier classification or re-classification.

3.6.2. The PatentBook Administrator shall make available to the Public, the identities and Evaluations of all Tier 1 patents, and the classifications of all remaining patents.

3.6.3. Limited Use of Tier Determinations. The Tier determinations resulting from any Evaluation and Validation shall be used by all Persons for the sole purpose of this Agreement.

3.7. Patent Validity. For purposes of Evaluation, issued patents shall be considered valid and enforceable.

3.8. PatentBook Patents. The PatentBook Administrator shall include a patent as soon as practicable after the PatentBook Administrator determines that the patent is eligible for inclusion in the PatentBook and the classification of such patent is determined.

3.9. Removal of Patents from the PatentBook. The PatentBook Administrator shall remove a patent from the PatentBook as follows:

(a) As soon as practicable after the PatentBook Administrator has determined that the patent is not eligible for inclusion in the PatentBook in accordance with Section 3.5;

(b) In the event the PatentBook Administrator receives notice that a PatentBook Patent has been finally adjudicated not to be valid or enforceable, not later than 30 Days following such notice; or

(c) Upon receipt of written instructions from the Publisher (Licensor), not later than 30 Days following such request.

3.10. Termination of License to a Subscriber (Licensee); Exclusion of License to a Prospective Subscriber (Licensee). The Publisher (Licensor) has the right at any time, to terminate for cause the license of any of its PatentBook Patents to any existing Subscriber (Licensee), subject to the provisions of Section 3.11, or to exclude for cause any of its PatentBook Patents from being licensed to any prospective Subscriber (Licensee).

3.11. Retention of License for Prior Usage; Deduction from Publisher Share.

3.11.1. Notwithstanding the right of the Publisher (Licensor) to direct the PatentBook Administrator to terminate for cause a license granted to any Subscriber (Licensee)(s) as to any of its PatentBook Patents, the Publisher (Licensor) acknowledges and understands that the Subscriber (Licensee)(s) shall retain a valid PatentBook Subscriber License as provided in Article II to all Licensed Products or Services that implemented any PatentBook Patents prior to the effective date of license termination by the Publisher (Licensor). The Publisher (Licensor) shall notify the PatentBook Administrator of the desired "**License Termination Date**", which date shall be a minimum of 30 Days following notification to PatentBook Administrator. If Publisher (Licensor) does not provide the desired date of license termination, the effective License Termination Date shall be 30 Days from the date the PatentBook Administrator receives notice of termination request from Publisher (Licensor).

3.11.2. *Withheld or Withdrawn Patents.* In the event that any patent is removed from the PatentBook under Section 3.9 or the license under any patent is terminated as provided in Section 3.10, the calculation of the Publisher Share of Subscription Payments shall exclude such Patent(s) in any Quarter in which the patent was removed or license terminated.

3.12. Publisher (Licensor) Control of its PatentBook Patents. Publisher (Licensor) may maintain, abandon, disclaim, sell, terminate or otherwise control its PatentBook Patents at its sole discretion. The Publisher (Licensor) shall bear all costs associated with the maintenance of its PatentBook Patents.

3.13. Assignment of a PatentBook Patent. If Publisher (Licensor) assigns, transfers, sells or otherwise conveys ownership of any of its PatentBook Patents to any Person in a manner that terminates the right of Publisher (Licensor) to license such PatentBook Patent, Publisher (Licensor) shall provide prompt notice to the PatentBook Administrator of such assignment, transfer or other conveyance, shall work with PatentBook Administrator to confirm proper recipient of future Publisher PatentBook Patent earnings.

3.14. Patent Infringement and Assertion. Nothing in this Agreement shall be construed or interpreted to grant to the PatentBook Administrator any rights or authority to assert claims for patent infringement under any patent published in the PatentBook.

4.1.1. *Amount and Rate of Subscriber (Licensee) Payments.* The PatentBook Administrator shall have the sole and absolute authority and discretion to establish and to revise, from time to time, the amount and rate of the Subscription Payments. In making revisions, the PatentBook Administrator may consult, at its discretion, with the Publisher (Licensor), Additional Publishers, Subscribers and other industry representatives.

4.1.2. *Collection of Subscriber (Licensee) Payments.* The PatentBook Administrator shall use commercially reasonable efforts to collect all Subscription Payments by Subscriber (Licensee)s under PatentBook Subscriber Agreements. The Publisher (Licensor) acknowledges and agrees that the PatentBook Administrator is not a guarantor of Subscription Payments payable under the PatentBook Subscriber Agreement but is responsible to remit Subscription Payments actually received (subject to and in accordance with Section 4.2 and as required by applicable law or regulations) pursuant to the PatentBook Subscriber Agreements.

4.1.3. *Payments to Publisher (Licensor).* The PatentBook Administrator shall calculate and pay Net Subscription Payments to the Publisher (Licensor) on a Quarterly basis. The amount due shall be paid within ninety (90) Days after the end of each Quarter.

4.1.4. *Publisher Share.* For the Publisher, the Publisher Share of Subscription Payments shall be determined according to the allocation method set forth in Exhibit B.

4.1.5. *Deposit of Subscriber (Licensee) Payments.* All payments collected or received by the PatentBook Administrator with respect to Gross Subscription Payments shall be deposited in a commercial interest-bearing checking account at a United States bank. The account shall be in the name of the PatentBook Administrator.

4.1.6. *Transfer of Subscriber (Licensee) Payments to Publisher.* Publisher Share payments shall be made by electronic transfer to the Publisher (Licensor), or to such bank account as the Publisher (Licensor) may, from time to time, designate to the PatentBook Administrator. The Publisher (Licensor) shall pay any wire transfer costs, currency conversion costs, bank fees or other charges associated with the payment of its Publisher Share. If currency restrictions prevent the PatentBook Administrator from making Publisher Share payments for any period during the term of this Agreement, then, upon request of the Publisher (Licensor), the PatentBook Administrator shall either (a) defer payment; or (b) deposit sums currently due in any bank in the United States designated by the Publisher (Licensor). Such deferral or deposit as directed of payment shall be deemed as compliance in full with the payment obligations under this Article. The PatentBook Administrator shall not be responsible for nonpayment or late payments in the event of any changes to such accounts made less than ten (10) business Days prior to the applicable payment date.

4.1.7. *Payments in US Dollars.* All payments under this Agreement shall be made in US dollars. 4.1.10. *Annual Settlement Statements.* In addition to the Quarterly statements, an annual settlement statement shall be given to Publisher (Licensor) by the PatentBook Administrator with respect to each Year; such statement to be delivered within ninety (90) Days of the end of each Year to which it relates. 4.2. Tax and Withholdings. Each Party shall be responsible for the payment of its respective income and other taxes that arise as a result of the transactions contemplated hereunder.

4.2.1. *Withholding Tax.* If Subscriber (Licensee) withholds any taxes on payment of any Subscription Payments ("**Withholding Tax**"), the PatentBook Administrator shall remit to the Publisher (Licensor) its Publisher Share reduced by the pro-rata amount of such Withholding Tax withheld by Subscriber (Licensee). In the event Subscriber (Licensee) is a resident of a country requiring Subscriber (Licensee) to withhold income tax on payments

made to Persons who are not residents of that country, and Subscriber (Licensee) fails to withhold required tax on such Subscription Payments, the PatentBook Administrator may deduct Withholding Tax from such payment according to the laws of that country as they apply to such residents of that country, provided that the full amount of any such Withholding Tax shall be remitted to the appropriate governmental authority. The PatentBook Administrator shall endeavor to provide Publisher (Licensor) all relevant documentation and proof of payment of any Withholding Tax deducted from any payment to Publisher (Licensor) to provide sufficient evidence of Withholding Tax paid. If a Publisher is eligible to take advantage of a reduced Withholding Tax rate provided for in any applicable tax treaty then in force, the PatentBook Administrator shall cooperate with Publisher (Licensor) to provide necessary documentation for the application of the treaty.

4.2.2. *Other Taxes.* Any other taxes, including without limitation any government levy/tax, that may be levied upon a Publisher or the PatentBook Administrator in connection with Subscription Payments paid to a Publisher shall be the responsibility of the Publisher or PatentBook Administrator, respectively, and the PatentBook Administrator may deduct such amounts from Publisher Share payments due hereunder. The PatentBook Administrator shall endeavor to provide Publisher (Licensor) all relevant documentation and proof of payment of any such other deduction from any payment to Publisher (Licensor).

4.3. Compliance and Enforcement of PatentBook Subscriber Agreement.

4.3.1. *Subscriber (Licensee) Compliance.* In addition to collection of Subscription Payments, the PatentBook Administrator shall have sole authority, consistent with its obligation to use commercially reasonable efforts, to assure that each Subscriber is materially complying with the terms and conditions of the applicable PatentBook Subscriber Agreement.
